Racer's Choice

"Racer's Choice" refers to pistons packed with performance enhancements, to produce the maximum power possible out of each application. Most of the racer's choice pistons are single ring 2-stroke or two ring 4-stroke pistons. With one less ring, weight and friction are reduced, power is increased, and throttle response is instantaneous! Racer's choice pistons offer extra performance to those racers and engine builders who want the most in every race.

Note: Service intervals may be increased with racer's choice pistons over conventional Wiseco pistons, and are for expert racers and tuners only.
