

New Product

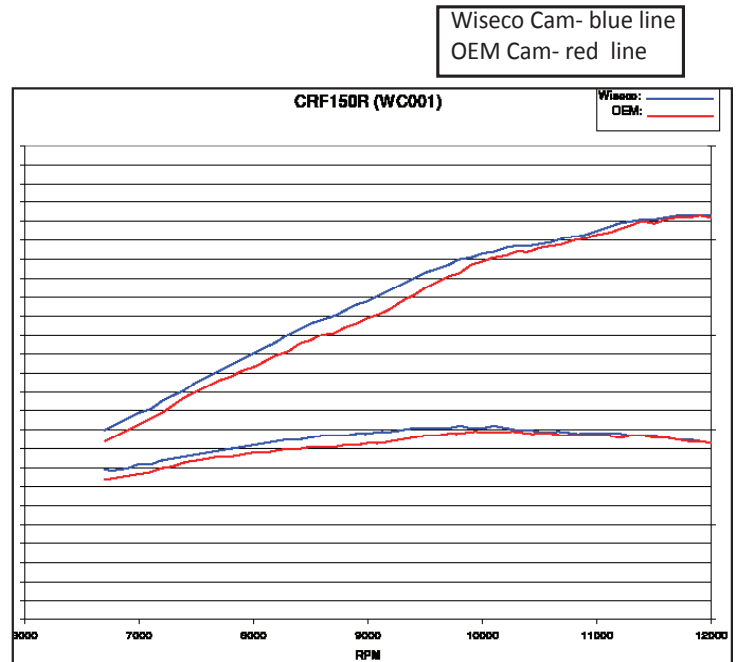

Wiseco Hi-Performance Camshaft- Honda CRF150R 2007-08

Motorcycle

Wiseco's new Camshafts are made from premium materials, state-of-the-art forgings, machined to exact tolerances, and specifically engineered for high performance and maximum durability. Brought to you by one of the most trusted names in the industry... Wiseco.

Wiseco's new hi-performance camshaft for the Honda CRF150 produces 6.4% horsepower and 6.7% torque gain over the stock OEM camshaft across the entire RPM range.

Features

- Polished lobes.....
- Direct OEM replacement.....
- Made from dedicated forgings
- Lobe design.....
- Dyno and field tested

Benefits

- Reduced friction and wear
- Drops in w/out any engine/ head modifications. Uses stock decompression mechanism.
- No core exchange required.
- Designed for overall HP and torque gain. Asymmetric design for better performance & less valve wear.
- Assures perfect match with Wiseco hi-performance forged pistons

Each camshaft includes hi-performance assembly lube.

Prices (USD): \$209.95
