Wiseco Big Block Chevy Quick 16 Severe Duty Piston Kits

Automotive

Designed with input from today's leading engine builders and Pro Stock technology, Wiseco introduces its Quick 16 pistons for drag racing. These pistons meet the demands of today's big valve, big cubic inch Sportsman series engines. Loaded with features, the piston includes anti-detonation grooves, 15° 'Pro Stock' pressure seal grooves, vertical gas ports, Armor-Glide™ skirt coating, reinforced decks, and profiled domes for Nitrous use.

Wiseco built these pistons on a 'new generation' dedicated forging designed to perform and last round after round- from weekly brackets to Super 16 Shootouts. And since Wiseco produces all their forgings in-house, these pistons are light weight with extreme durability. The dome configuration is designed to maintain proper flame travel and desired compression ratios needed for today's extreme horsepower engines and exotic fuels. It's designed to fit conventional heads from today's leading manufacturers. Our new Quick 16 pistons have all the features expected for modern day race engines.

These pistons and kits come complete with pistons, pins, and Spirolox. The K0006B series pistons utilize a .043bc, .043d, 3mm oil ring for thicker ring lands required in heavy nitrous applications.

Price (US): **Piston Kit:** \$1,155.55, **Piston:** \$158.89; **K1 Crankshaft:** \$892.89, **K1 Connecting Rod Set:** \$545.08

Kit Part #	Cubic Inch	Repl. Piston	Bore Size	Stroke	Rod Lgth.	Comp. Ht.	Dome Volume	Comp. Ratio	Repl. Ring Part #
