

New Product

NEW Wiseco Fuel Management Controllers- V-Twin

Motorcycle

Wiseco's new Electronic Fuel Injection Controllers are simple and easy to use. With the push of a button, you can easily adjust fuel flow for modifications such as high compression pistons, cams, intake, and exhaust to fine tune your bike. No dyno or computer needed! It gives you three basic zones of operation, similar to a carburetor. One zone sets your 'pilot jet' for idle and cruise. Another zone sets your 'needle jet' for acceleration, and a third zone sets your 'main jet' for heavy loading and wide open throttle.

This cost-effective fuel management controller is complete with built-in accelerator pump tuning capability. Available through Wiseco, these units will complete your 'One Name. One Solution.™'

Model	Year Range	Wiseco Part Number
All Big Twin Harleys	1995-05	FMC051
Dyna	2006-09	FMC052
Softail	2006	FMC053
Softail	2007-09	FMC054
Touring	2006	FMC055
Touring	2007	FMC056
Touring	2008-09	FMC057
V-ROD	2002-07	FMC058
V-ROD	2008-09	FMC059
Sportster	2007-09	FMC060

Features

- Plug N' Play installation
- Easy push button operation
- Easy air/fuel ratio adjustment
- Load based operation
- 3 basic zones of operation
- Uses OEM base code
- Electronic 'accelerator pump' tuning capability

Benefits

- Simple to use and understand
- No computer or dyno required
- Easily adjusts for modifications - intake, exhaust, cams, etc.
- Tuning capabilities superior to Alpha N type controllers
- Similar to carburetors
- Does not scramble base code
- Provides instantaneous throttle response
