Wiseco Clutch Pack Kits

Wiseco Clutch Pack Kits contain everything you need to upgrade your worn out clutch plates and springs. Each Kit includes new frictions, steels, and clutch springs, all made from premium grade materials. The frictions and steels are made to exact OEM tolerances and specifications, and produce the same feel and wear resistance of OEM plates. To ensure a positive clutch hookup every time, Wiseco clutch springs are 8 to 10% stiffer than stock. Clutch pack kits are an easy solution to worn or slipping clutch.

Wiseco Performance Clutch Kits

The **Wiseco Performance Clutch Kit** takes our Clutch Pack Kit one step further by including a Wiseco forged clutch basket and new rubber cushions. Our forged baskets are tougher and stronger than stock, and achieve higher fatigue properties than any other clutch on the market. The hardcoat anodizing wears like iron and significantly extends the life of the basket against notching. Also included is a full set of frictions, steels, and clutch springs made from premium grade materials. Replace your worn out clutch and notched basket with the ultimate in high quality Wiseco clutch components!

Wiseco Extreme Clutch Kits

Give your off-road bike or ATV that factory-racing feel with a **Wiseco Extreme Clutch Kit**. Each kit comes with everything you need for a full clutch replacement, including a forged clutch basket with new cushions, forged inner hub and forged pressure plate – all hardcoat anodized for the perfect feel and ultimate in wear resistance. Also included is a full set of frictions, steels, and springs made from premium grade materials. When you need the best in forged clutch components, choose Wiseco for that factory-racing feel and extreme performance!
