

New Product

Ski Doo 800R Piston Kit 2007-08

Snowmobile

For years, Wiseco has used only the finest certified grades of forging aluminum available. We now have a new new hybrid alloy (limited applications) that features superior wear resistance and high temperature strength. Wiseco's new Ski Doo 800R pistons are made from this hybrid alloy to withstand the stress and performance of Ski Doo's new "R" series engine.

Features

- Dedicated forging Superior strength to weight ratio utilizing a new hybrid, Aerospace alloy
- Race proven designs Utilized by the top team in snow cross, cross country, and drag racing
- Semi-keystone chrome ring Wear resistant face with pressure back design for long life and optimum ring seal
- Electra coated Eliminates ring and piston pin scuffing for increased life and added performance
- CNC Machined Optimal cam shape and profile for peak horsepower and service life
- Dedicated alloy NEW aerospace high strength alloy
- Skirt coated Reduced friction and quiet operation
- Made in the USA Over 65 years of experience with forged piston technology by American craftsmen
- Light Weight Less vibration and improved throttle response

Benefits

- Piston Kit includes: pistons, piston pin, rings, retainer clips, and gasket kit.
List Price (USA): \$373.48
- Piston includes: piston pin, rings, and retainer clip
List Price (USA): \$155.77
