Yamaha YFZ450 Extreme Clutch Kit

ATV

Wiseco Extreme Clutch Kits

Give your off-road bike or ATV that factory-racing feel with a **Wiseco Extreme Clutch Kit**. Each kit comes with everything you need for a full clutch replacement, including a forged clutch basket with new cushions, forged inner hub and forged pressure plate – all hardcoat anodized for the perfect feel and ultimate in wear resistance. Also included is a full set of frictions, steels, and springs made from premium grade materials. When you need the best in forged clutch components, choose Wiseco for that factory-racing feel and extreme performance!

Wiseco Forged Clutch Baskets, Inner Hubs, and Pressure Plates

- Wiseco precision forged clutch components have greater strength due to “feature aligned grain flow.” Compared to castings or products machined from billet, Wiseco forged clutch components can be lighter and still have increased mechanical properties resulting in higher strength, ductility, and resistance to impact and fatigue.
- Specifically designed to capitalize on detailed features that can only be produced by the precision forging process.
- Hard anodized and Teflon coated for a long life of smooth clutch operation through the elimination of wear on contact surfaces.
- Rotational mass is minimized for reduced assembly weight and maximum engine acceleration.
- Forged from lightweight, high-strength, certified, aerospace grade, aluminum alloy.
- Wiseco’s CNC machining process produces each clutch component dimensionally the same as the next.

Don’t forget, all Wiseco forged clutch products purchased in 2009 will have a lifetime warranty against breakage and notching! We also offer many other clutch kit options to compliment our full line of piston kits, bottom end kits, and valve train components.
